SEALING SYSTEMS SCOTLAND LTD

“T B Dunn & Co are easy to contact and are responsive to our needs. We benefit from their attention to detail and the prompt and efficient manner in which they work with us”

Jackie Boyd
Director | Sealing Systems

Established for 12 years and based in Paisley, Sealing Systems provide many pharmaceutical and chemical industry companies in Scotland with specialist sealing products. The company is the Scottish distributor for Flowserve products, which aligns their business to quality solutions. Sealing Systems apply this same quality principal to their suppliers and choose to work with Glasgow based, T B Dunn & Co for all of their accountancy requirements.

Jackie Boyd is a director at the company and first met the partners at T B Dunn at a new business start up networking event. At this time Sealing Systems were just starting out and Jackie had gone into the business with virtually no accounting experience. Says Jackie “the team at T B Dunn & Co helped to train me in book keeping, I was previously a teacher so this was a complete career change for me. They were very helpful and patient in this respect and I learned everything I needed to know from them”.

Today, Jackie handles all of the day to day book keeping and payroll, which is supported by T B Dunn & Co at the year end. “T B Dunn’s audit and tax team work closely with the

company at our year end to complete the audit and accounts and to handle our personal and corporation tax obligations. They are always pleasant to deal with and provide a very accessible team at this time and indeed, throughout the whole year”.

Of course, meeting statutory accounting requirements accurately and efficiently is only part of the work that T B Dunn assist us with says Jackie. We go to them for business advice if we are considering changes to the business and value them as a sound advice board in this respect. They also assist us greatly with very pro-active financial planning advice. They have a wide network of experienced contacts in the financial services industry and we have really benefited from their introductions to them”.

Jackie regularly recommends T B Dunn & Co to other businesses she meets “they are easy to contact and are responsive to our needs. We benefit from their attention to detail and the prompt and efficient manner in which they work with us”.
