

An **easier** way to pay your **accountancy** fees

We are pleased to offer you the opportunity to spread your accountancy fees over monthly payments via a facility called FeePlan* provided by Premium Credit Limited.

With FeePlan, instead of having to pay your accountancy fees in a single lump sum, you can benefit from a credit facility that enables you to smooth the settlement of the invoice over a number of monthly payments.

Our years of experience tell us that it's not a question of whether you can afford to pay in one lump sum. It's about whether you would prefer to smooth the cost over the year – just like you do with many other regular bills at work and at home.

Benefits of using FeePlan

Boost Cash Flow

- Keep your cash available for use in your business as additional working capital.

Additional Line of Credit

- A new totally unsecured credit line and one that doesn't involve complex application forms or supporting projections.

Competitive Cost

- A small transaction fee will be added to your invoice amount, this will be advised by the practice and is subject to a minimum fee.
- No application or arrangement fees.

* Terms and conditions apply - credit is subject to status.

How do you apply?

- It's really easy – just tell your practice you want to take advantage of the FeePlan facility and they will advise you of the options available.
- Your practice will then contact Premium Credit on your behalf and on approval, Premium Credit will electronically (or by post if no email details given), send you a Credit Agreement to e-sign or return.
- You will also receive confirmation of the exact payment amounts and due dates.
